

Maxim Gennadyevich Allabyan

Rector. Economist. Researcher.

Education management, innovation policy and economic development.

Email: maxim@allabyan.com

Official website: allabyan.com

Maxim Allabyan was born in 1989 in the Moscow Region. He has worked in education since 2007. He began as Head of Admissions, served as Vice-Rector, and directed a college and a lyceum. From 2013 to 2026, he served for over 12 years as Rector of the Higher School of Entrepreneurship. He has been Rector of Iskra since 2018. He conducts research and develops education projects that expand access to Russian-language education and promote the Russian language worldwide. His charitable work supports children without parental care. He is married and has a son.

He holds two higher education degrees, the degree of Candidate of Economic Sciences, and the academic title of Associate Professor. He is a Corresponding Member of the International Academy of Education and a federal expert for Russia's Ministry of Education and Science. He completed the University Management and Education of the Future programmes at the Moscow School of Management SKOLKOVO. He earned a PhD in Economics in the United Kingdom and continues his professional development through training and seminars. He has published more than 45 research works on economics and the management of educational institutions. He has delivered more than 5 in-person and distance learning projects in Russian, both in Russia and abroad.

Biography

Maxim Gennadyevich Allabyan was born on 13 June 1989 in the Moscow Region. He holds the degree of Candidate of Economic Sciences and the academic title of Associate Professor. He has worked in education since 2007, focusing on managing educational institutions, assessing education quality, and developing distance learning and digital services.

Education and academic degrees

In 2008, he graduated from the Moscow International Institute of Econometrics, Informatics, Finance and Law, completing secondary vocational education in Finance and qualifying as a finance specialist.

From 2006 to 2010, he studied Finance and Credit at the Moscow Academy of Finance and Industry. His thesis focused on improving the management of a company's working capital.

In 2011, he earned a second higher education degree in Organisational Management. His thesis focused on project portfolio management.

In 2013, he defended his dissertation, "Formulation and Implementation of Industrial Policy at the Macro and Micro Levels" at Voronezh State University of Engineering Technologies, and earned the degree of Candidate of Economic Sciences. The research examined how to align industrial policy across the economy and individual enterprises, how to implement it, and how to assess its results.

In 2018, he was awarded the academic title of Associate Professor in Economics and Management of the National Economy.

In 2023, he received a PhD diploma in Economics from the Higher Academic Council of the United Kingdom Academy of Education. That same year, he was elected a corresponding member of the International Academy of Education.

Career in education

From June 2007 to October 2010, he headed the admissions office at the Krasnoznamensk branch of Moscow University for Industry and Finance in the Moscow Region. This marked the start of his career in education.

From November 2010 to May 2013, he served as Vice-Rector for Development at the Tver Institute of Economics and Management.

From 2013 to 2026, he served as Rector of the Higher School of Entrepreneurship institute in Tver and also headed the college and lyceum within the educational complex. His work covered general, secondary vocational and higher education institutions.

At the July 2016 GARANT conference on workforce training in the Tver Region, he discussed choosing programmes based on labour market needs, working with employers and developing students' entrepreneurial skills. Students met business representatives, attended workshops, visited companies and took part in practical training.

Since 2014, he has conducted federal expert assessments of higher education programmes. He serves as a federal expert for the Ministry of Education and Science of the Russian Federation and the Federal Service for Supervision in Education and Science (Rosobrnadzor).

Since 2018, he has served as Rector of Iskra, a private institution of continuing professional education that he founded.

Maxim Gennadyevich Allabyan's résumé was downloaded from allabyan.com

In 2024, he took part in Entrepreneur Day for school students in Torzhok, organised by the Tver regional branch of OPORA Russia.

Professional development and recognition

In 2014, he completed the Vocational Education Quality Assessment programme at the Training and Consulting Centre.

In 2015, he earned a further qualification in vocational education quality assessment. His final project examined the Bologna Process requirements for higher education quality assurance systems and ways to introduce information technology. In April of that year, he completed the Education Quality Management programme.

In 2015, he undertook professional development at the National University of Science and Technology MISIS on accrediting experts who carry out inspections for Rosobrnadzor. He attended a seminar on state accreditation of educational activities and a national conference on education quality assessment and professional qualification certification. He received a membership certificate from the Guild of Experts in Vocational Education.

In 2017, he completed the University Management course at the Moscow School of Management SKOLKOVO. That year, he took the verbal reasoning test for the Leaders of Russia competition and received an honorary certificate entitled ‘Industry Professional’.

In 2018, he completed the Education of the Future course at the Moscow School of Management SKOLKOVO. He attended seminars run by Prosveshcheniye on state oversight, educational licensing, inclusive education and quality control.

In 2020, he attended Yandex’s conference “Yet another Conference on Education”, which focused on people and technology in education.

In 2021, he completed the Product Management course. That year, he also completed professional development programmes on current education and occupational standards, information and communication technologies in teaching, organising research and developing teaching methods, inclusive education, and first aid for students.

In 2022, he completed training on operating a digital learning environment. He attended a workshop on international accreditation of educational institutions and programmes using digital technologies.

In 2024, he attended a webinar on the official websites of educational institutions and risk-based oversight.

Education and digital projects

From 2008 to 2010, he worked on student admissions at the Krasnoznamensk branch of the Moscow Academy of Finance and Industry. His employment history records his tenure as head of admissions from June 2007 to October 2010.

From 2009 to 2012, he helped create and run VuzRus. The portal brought together programmes from Russian educational institutions and offered distance learning in higher and secondary vocational education.

From 2010 to 2012, he helped develop a project at the Tver Institute of Economics and Management, working on admissions and strategy. He served as Vice-Rector for Development until May 2013.

From 2011 to 2026, he helped create and finance OCBS, a project focused on digital products, UX/UI design and software development.

From 2012 to 2026, he worked on the reorganisation, operations and development of the Higher School of Entrepreneurship. The project brought together a lyceum, college and institute in Tver. He headed the

Maxim Gennadyevich Allabyan’s résumé was downloaded from allabyan.com

institutions from 2013.

From 2014 to 2016, he helped create, develop and run Listbagg, a platform developed by the British company Profguarantee Ltd for distance learning in Russian at educational institutions in several countries. His résumé lists his tenure as project manager from 2014 to 2020.

From 2019 to 2026, he helped establish, manage and develop the technology of the Swiss International Institute Lausanne, a private Swiss institution offering distance learning.

Maxim Allabyan is one of four co-authors of the software Ed.ERP (Education Enterprise Resource Planning), registered in 2022 under certificate No. 2022683101. It brings the main processes of an educational institution together in one digital environment.

Research and publications

Maxim Allabyan's research interests include industrial and innovation policy, organisational management, digital transformation and regional development.

In 2013, he published a monograph on formulating and implementing industrial policy at the macro and micro levels. He developed the topic further in his dissertation and journal articles.

His later publications addressed management, innovation and the use of digital technologies in economics and education.

In his 2025 work, he examined barriers to innovation, technological sovereignty and digital inequality. In their study Digital Inequality and Barriers to Innovation in the Regions of the Central Federal District, he and Nikolay Zhakhov analysed Rosstat data for 2010–2023 and examined how the distribution of investment and shortages of skilled workers affect regional development.

Charitable work

Since 2022, he has supported the Bogoroditsky Zhitenny Convent, which runs the Daughters and Mothers home for children without parental care.

Since 2025, he has supported the Teremok children's home, which cares for young children without parental care, including children with disabilities and children living with HIV.

Family and interests

He is married and has a son. He practises boxing, plays tennis and swims. He holds the Candidate Master of Sport rank in boxing and is a member of the Tver Region Tennis Federation.
